IN THE CLAIMS:

GROUP 3600

Please enter the following amended claims:

13. (Four times amended) A large printer comprising:
a sheet feeding area positioned at a height at which a user, who is approximately 170 cm tall, can set up a printing medium without having to bend substantially at the waist when the user is standing erect in front of the printer and standing substantially at ground level,
wherein the sheet feeding area is positioned at the height when the printer is placed substantially at the ground level, and
wherein a plurality of paper rolls are loaded in the sheet feeding area so as to be arranged obliquely relative to each other in the vertical direction.
